Value Global

NetSuite Solutions

NetSuite Services

What we offer in NetSuite

Value Global is your ultimate NetSuite consulting services provider for harnessing the full potential of NetSuite.

With unrivaled expertise in Implementation, Customization, Integration, and Automation, we are your trusted partner in propelling your business to new heights of success.

Implementation

Seamlessly transition to NetSuite with our expert team guiding you every step of the way.

Customization

Unleash the full potential of NetSuite by tailoring it to your exact requirements.

Integration

Seamlessly connect your entire ecosystem with NetSuite through our expert integration services.

Support

From task automation to intelligent workflows, we optimize your processes and maximizing productivity.

Implementation Services

Value Global is your ultimate NetSuite consulting services provider for harnessing the full potential of NetSuite. With unrivalled expertise in Implementation, Customization, Integration, and Automation, we are your trusted partner in propelling your business to new heights of success.

Precision-Crafted Solutions

We believe in precision over ambiguity. Our NetSuite implementation services are meticulously designed to suit the specific needs and challenges of your business.

Time-Efficient Deployment:

We recognize the value of time in the fast-paced business landscape. Our implementation process is carefully orchestrated to minimize disruptions and accelerate the deployment timeline.

Industry Best Practices

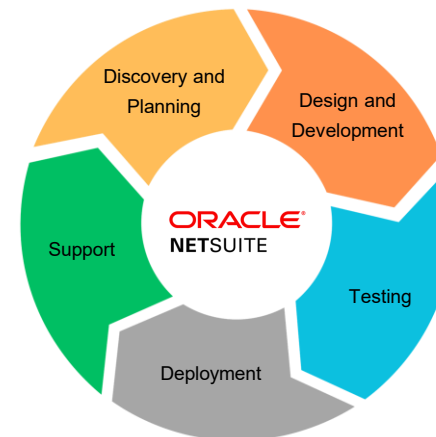

With a relentless pursuit of excellence, a seasoned team of experts, and a commitment to surpassing expectations, we empower businesses to embrace the true power of NetSuite.

Innovation-Driven Approach:

At Value Global, we thrive on innovation. Our implementation experts stay at the forefront of emerging technologies and best practices.

Unique Industry Expertise:

With extensive industry expertise across various sectors, our team of specialists brings unique insights and proven strategies to the table.

Customization Services

At **Value Global**, we understand that every business is unique, and so are its requirements. Our customization services are designed to help you harness the full potential of NetSuite through tailored solutions that align perfectly with your business processes. With a dedicated team experienced in SuiteScript 1.0, 2.0, and 2.x, we specialize in a wide range of NetSuite customization areas.

Automating Business Processes

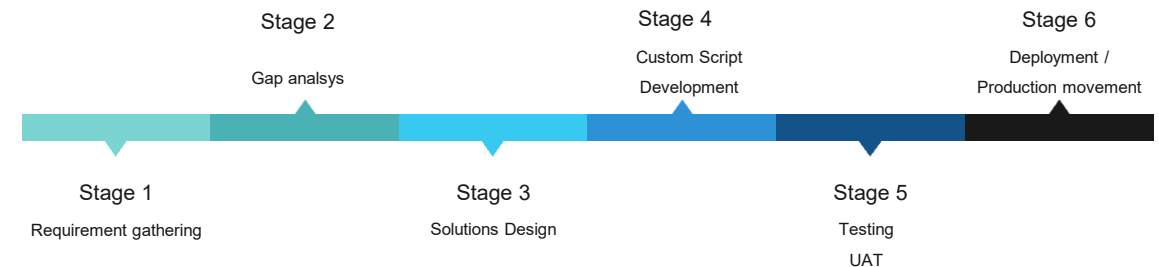

Our experts leverage SuiteScript capabilities to automate various business processes, reducing manual efforts and errors, while streamlining your operations for optimum productivity.

Connectors Development

Seamlessly integrate NetSuite with other essential applications.. Our team specializes in building connectors that ensure smooth data flow and real-time communication between systems.

Advanced PDFs

Present your data in style. We create customized Advanced PDF templates that adhere to your brand guidelines, ensuring your documents stand out and reflect professionalism.

SuiteCommerce Extensions

Enhance your SuiteCommerce experience with tailor-made extensions that add features and functionalities specific to your industry and audience.

Collaboration with NetSuite Partners

We take pride in assisting other NetSuite partners with their scripting needs. From building connectors to crafting SuiteApps, our collaboration amplifies the capabilities of the entire NetSuite ecosystem.

Integration Services

At **Value Global**, we excel in providing seamless integration services that empower your business to thrive in a connected world. Our expertise lies in integrating NetSuite with a wide range of business applications, integration platforms and offering you unparalleled connectivity and efficiency.

Business Applications Integration

We seamlessly connect NetSuite with your other business applications, enhancing cross-functional data sharing and process automation.

Integration Platform Expertise

Our team is proficient in using third-party integration platforms like Celigo, Dell Boomi, Workato, MuleSoft, and more. We leverage these platforms to create robust, scalable integrations that enable efficient data exchange across your tech stack.

Payment Gateway Integration

We integrate NetSuite with a variety of payment gateways, allowing you to securely process payments, reduce manual data entry, and gain real-time insights into your financial transactions.

Custom Connector Development

When off-the-shelf integrations don't meet your specific needs, our skilled developers can build custom connectors tailored to your requirements. These connectors bridge the gap between NetSuite and your unique business applications, ensuring a seamless flow of data and operations.

E-commerce Integration

Our team specializes in integrating NetSuite with various e-commerce platforms, ensuring that your online storefront and back-end operations work in harmony.

Support Services

At **Value Global**, we understand that your business relies on NetSuite to run smoothly and efficiently. That's why we offer a comprehensive suite of NetSuite support services designed to ensure your system's stability and optimal performance. Our commitment to customer satisfaction is at the heart of everything we do.

Annual Maintenance Contracts (AMC)

With our AMC services, you gain the peace of mind that comes from knowing your NetSuite system is continuously monitored, maintained, and updated. Our team ensures your NetSuite environment stays up-to-date with the latest features and security patches, minimizing disruptions.

Admin Support

Managing your NetSuite system can be a complex task. Our admin support services offer assistance with user management, access control, configuration changes, and general system administration, ensuring that your NetSuite instance aligns with your evolving business needs.

On-Demand Support:

We're here when you need us most. Our on-demand support means you can reach out to our experts whenever you encounter an issue or need assistance with your NetSuite system. We respond promptly, providing solutions to keep your operations running smoothly.

Technical Support

Our technical support team comprises experienced professionals ready to tackle any technical challenge. From troubleshooting errors to optimizing performance, we have the expertise to keep your NetSuite system running seamlessly.

Value Global NetSuite Capabilities

- Certified consultants with deep NetSuite ERP expertise
- Experience across Finance, Inventory, Manufacturing, and CRM modules
- Implemented solutions for clients in Manufacturing, Energy, and Technology sectors
- Delivered both greenfield implementations and optimization engagements
- Ongoing Application Management Services (AMS) and support capabilities

Our NetSuite Solutions

Case Studies

Case Study: NetSuite Optimization for Energy Intelligence

Client: Energy Intelligence | Industry: Energy Market Intelligence & Research
Platform: Oracle NetSuite

Challenges

- Unstructured Chart of Accounts → Disorganized reports & manual adjustments
- No item classification → Inaccurate financial insights by stream
- Ineffective ACS support → Ongoing structural issues
- Manual financial reports → Excel-dependent workflows
- No real-time visibility → Delayed decision-making

Value Global’s Optimization Solution

- Redesigned Chart of Accounts for structured financial hierarchy
- Multi-dimensional item classification by department, class, and location
- Real-time financial & departmental dashboards
- Accurate revenue recognition setup
- Management-ready reports for fast executive decision-making

Business Impact

Focus Area	Results
Financial Structure	Clean, consistent, and insightful data
Manual Reporting	Excel reliance eliminated
Revenue Recognition	Real-time alignment with business ops
Budgeting Accuracy	Reliable Budget vs. Actuals
Management Insights	Instant access to multi-dimensional reports

 **Outcome:** Value Global transformed Energy Intelligence’s underutilized NetSuite instance into a powerful, insight-driven ERP system—unlocking efficiency, accuracy, and smarter decisions.

Case Study: Seamless Salesforce – NetSuite Integration for Energy Intelligence

Client: Energy Intelligence | Industry: Energy Market Research & Publishing
Platforms: Salesforce CRM & Oracle NetSuite ERP

Challenges

- Manual re-entry of customer/subscriber data into NetSuite
- Rigid Breadwinner middleware with no field mapping or update flexibility
- Time-consuming cross-verification & error-prone data syncing
- No re-sync/update options once data was transferred
- No shared record visibility between systems

Value Global’s Integration Solution

- Custom Salesforce–NetSuite integration via direct APIs
- Configurable field-mapping interface for dynamic sync control
- Auto-sync of Customers, Contacts & Subscribers with cross-references
- “Push to NetSuite” button for Won Opportunities (Accounting team only)
- Built-in re-sync support for updating existing records
- High-volume support: 400+ subscribers per opportunity & Free Trial sync

Business Impact

Focus Area	Result
Data Entry	Manual entry eliminated, reducing errors & saving time
Integration Accuracy	Real-time, automated sync with high data integrity
Operational Efficiency	Faster quote-to-cash process with fewer discrepancies
User Control	Field mapping & sync logic manageable without developers
System Coordination	Unified visibility for Sales, Finance & Support teams

Outcome

Value Global delivered a flexible, automated integration that replaced outdated middleware—enhancing efficiency, data accuracy, and control across CRM and ERP systems.

Case Study: NetSuite Implementation for a Food & Beverage manufacturer.

Industry: Food & Beverage Manufacturing | Duration: 5 Months | Platform: Oracle NetSuite
Solution Areas: Manufacturing, Inventory, Finance

Challenges

- Inaccurate inventory data & overstocking
- Manual processes slowing operations
- No unified financial reporting
- Poor visibility in production planning

Solution by Value Global

- Full NetSuite ERP Implementation
- Real-time inventory tracking & alerts
- BOM & batch-wise production tracking
- Automated procure-to-pay & order-to-cash
- Custom financial dashboards & reports
- End-user training & change management

Business Impact

Focus Area	Results
Manufacturing Control	Real-time production tracking
Inventory Accuracy	50%+ improvement in visibility & efficiency
Cost Clarity	Accurate production costing & margin insights
Finance Automation	Timely, reliable reporting
Scalability	Multi-location growth readiness

 **Outcome:** Now they operate with full visibility, automation, and control—positioned for efficient, scalable growth in a competitive market.

Why Value Global

When you choose **Value Global**, you're choosing a partner that goes beyond the ordinary, delivering tailor-made, powerful NetSuite solutions.

Experienced

With a wealth of experience in NetSuite consulting, we bring a seasoned and knowledgeable team to the table.

Innovative

Our commitment to innovation ensures that we provide creative and forward-thinking solutions.

Customer Success

Our unwavering commitment to customer success means that we go the extra mile to ensure that clients achieve their business objectives.

Continuous Learning

We stay ahead of the curve by continuously learning and adapting to new NetSuite features and releases.

Cost-Effective

We offer competitive pricing without compromising on the quality of our services.

Our Delivery & Engagement Approach

- Dedicated NetSuite project team with strong delivery track record
- Blended onsite-offshore model for cost-effectiveness and scale
- Flexible engagement models – fixed scope, time & material, and AMS
- Emphasis on business value delivery and user adoption
